EXPLORE PERU AND ALL ITS NATURAL WONDERS

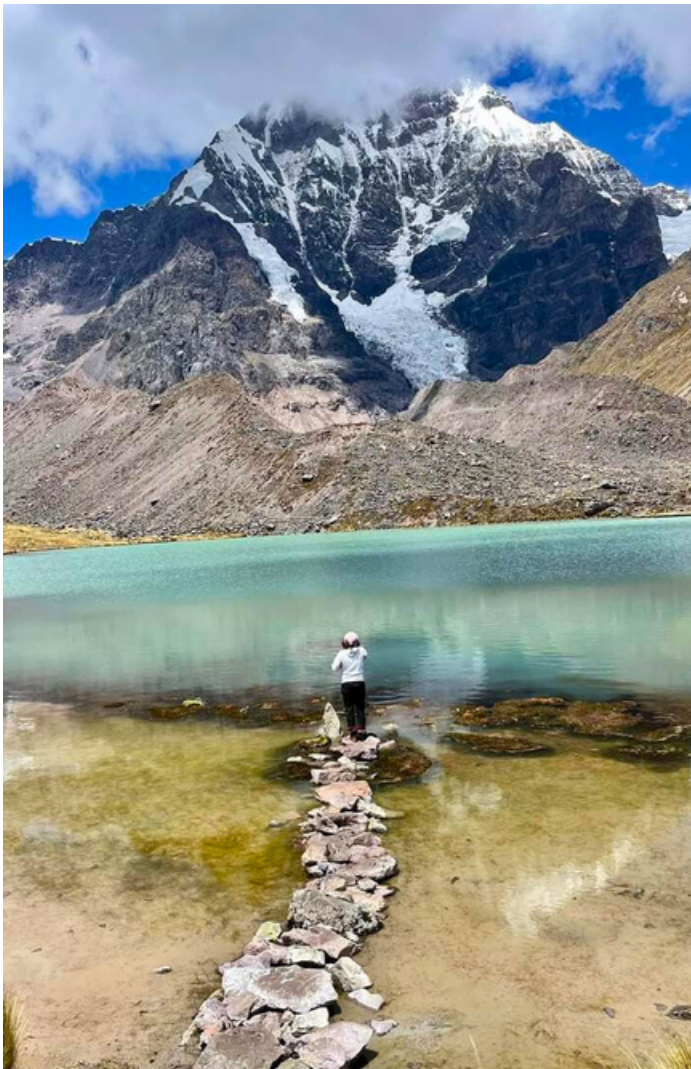

Machu Picchu

Apu Ausangate

Manu Biosphere Reserve (Amazon)

Explore Peru on a 15-day trip: a unique and spiritual experience that connects you with your way back to nature.

@reserva_chontachaka

HEALING AND RECONNECTING JOURNEY

Find order, healing and inner balance through the order, health and balance that nature has and that manifests powerfully with the Master plants. They are the speakers of Pachamama. From them we will receive the teachings we need for this conscious path of return to Mother Earth. It is a path parallel to the path of self-knowledge, where at some intersection they become one. This is the ultimate purpose of the journey, when you recognize yourself in the earth and the Master Plants tell you what no one has ever told you before.

That is why in this work we have started 15 years ago to restore forests in the Manu Biosphere Reserve we have been shown a parallel path, restoring forests while restoring our souls, while the forest recovers our ancient memory is recovered. We are remembering what we were and what we are. And so we will take care of the forest as one who takes care of himself.

MACHUPICCHU AND SACRED VALLEY

4 days/ 3 nights Cusco, Sacred Valley and Machu Picchu

Thinking of Peru undoubtedly makes us dream of the monumental citadel of Machu Picchu, one of the largest and most important Inca temples of antiquity, named a World Heritage Site by UNESCO, a place where we will travel back in time and learn what life was like in these exotic Andean lands.

In this tour, we will also visit the Sacred Valley of the Incas, one of the most beautiful and picturesque places you will see, visit small towns, archaeological sites and enjoy the exquisite local cuisine.

SPIRITUAL AND ANCESTRAL

APU AUSANGATE

2 DAYS / 1 NIGHT

The Apu Ausangate is the highest mountain in Cusco and the fifth highest in Peru with 6,385 meters above sea level, there we will find the community of Paqchanta, a small village in the highlands, home of the Ausangate community, ancestral inhabitants of these inhospitable lands.

HOT SPRINGS IN ONE OF THE HIGHEST MOUNTAINS IN PERU

We will ride on horseback along the beautiful route of the lagoons and connect with the pure beauty of the imposing Andean mountain range. We will also take an exclusive bath in the hot springs of the community where we will have a privileged view of the Apu Ausangate, guardian of Cusco.

MANU BIOSPHERE RESERVE (AMAZON)

8 days/7 nights Cusco/ jungle + bamboo diet and Master Plants ,
AYAHUASCA

We will visit the ecological reserve of Chontachaka, located in the Manu National Park, a unique and special place, which has one of the most virgin and diverse ecosystems still remaining on the planet, home to millions of species of animals, plants and native communities.

Being in the jungle allows us to rest from the outside noise and connect with our true essence, purifying and releasing what we no longer desire, an opportunity to tune into the beauty of living in balance and harmony with all that exists. A powerful place for healing.
